Abstract of JP2118188

PURPOSE:To eliminate overlapping of hue in case of dip dyeing, etc., of a material to be dyed after resist printing treatment by adding specific dyeing-resisting agent comprising epoxypropyl trimethylammonium chloride, etc., to a material composed of natural fiber, etc. **CONSTITUTION:**A dyeing-resisting agent containing 2,3-epoxypropyl trimethylammonium chloride and/or amide sulfates, tannic acids, dimethylpolysiloxane, methylhydrosiloxane and carbamides is added to a raw material composed of natural fiber or regenerated fiber and subjected to heat treatment to contrive dyeing-resisting of natural fiber, etc.
